

# *San Bernardino Freeway (I-10) High Occupancy Vehicle Lane Project*

## **Retaining Wall Construction Activities Taking Place Near Cal Poly Pomona Campus as Part of 10 HOV Construction Project**

As part of the High Occupancy Vehicle (HOV or carpool) lane project, the California Department of Transportation (Caltrans) has begun construction of a retaining wall along the eastbound San Bernardino Freeway (I-10) near the Cal Poly Pomona campus. The construction of the retaining wall will include pile driving, which can cause noise. Pile driving activities for the retaining wall will continue through summer, 2017.

Access to the Cal Poly Pomona campus will be available at all times.

Guy F. Atkinson Construction, LLC. is the contractor of this \$195 million project, which will add an HOV lane in each direction of I-10 between Citrus Street and SR-57. This is the final of three projects that upon completion will offer one continuous HOV lane from downtown Los Angeles to San Bernardino County.
